As at 31 December 2022, the assets under management of Oaktree Capital Group LLC is approximately US\$170 billion.

REASONS FOR AND BENEFITS OF THE SUBSCRIPTION AND USE OF PROCEEDS

For the purpose of carrying out the satellite manufacturing business (such as the development, design and testing of satellite payload, communications satellites, navigation augmentation satellites and remote sensing satellites), Aspace entered into a procurement of equipment and installation service contract on 27 October 2021 for the establishment of the Group's Hong Kong satellite manufacturing centre at the 2/F AMC Premises with a total contract sum of approximately HK\$256.8 million. Aspace further entered into a fit-out contract on 2 August 2022 for fitting out works for the 2/F AMC Premises with a contract sum of approximately HK\$120.8 million.

Supplemental information to the subscription of new Shares in 2021

To meet the funding need for the establishment of satellite manufacturing centre and fitting out works, on 29 October 2021, the Company entered into the subscription agreement in respect of the subscription of 9,000,000 new Shares by Mr. Ma Alexander. Completion of the said subscription took place on 9 November 2021. The net proceeds from the said subscription was approximately HK\$237.4 million which was intended to be used by the Company on phase I of the establishment of the Hong Kong satellite manufacturing centre at AMC Premises. As at 30 June 2022, 78.17% of the net proceeds from the subscription had been utilised. The remaining net proceeds have been fully utilised during the year ended 31 December 2022.

Subscription of Aspace Shares by the Subscriber

The estimated net proceeds from the Subscription after deducting the estimated expenses in relation to the Subscription will be approximately HK\$159.5 million, of which HK\$79.75 million is intended for the capital requirement of Aspace to establish the Hong Kong satellite manufacturing centre; and the remaining balance of approximately HK\$79.75 million is intended for general working capital of Aspace.

As at the date of this announcement, the construction, renovation and the equipment installation works are still undergoing and Aspace has significant financial obligations and capital commitment under various contractual and other arrangements in relation to the establishment of the Hong Kong satellite manufacturing centre and the fitting out works of the 2/F AMC Premises as discussed above, which is amounted to approximately HK\$136 million. Moreover, it is expected that the satellite manufacturing centre will be completed in the third quarter of 2023. For the development of its satellite manufacturing centre in Hong Kong, Aspace will also require further funding for its satellite manufacturing centre operation. The Subscription Price will provide funding for Aspace to meet part of its contractual obligations without solely relies on the Group's internal resources.

Reference is made to the announcement of the Company dated 8 March 2023 regarding the subscription agreement dated 8 March 2023 and entered into between Aspace and Abridge Aerospace Hybrid Equity LPF, a limited partnership fund registered in Hong Kong, in relation to the subscription of new Aspace Shares, which was subsequently terminated on 7 June 2023. After the termination of the previous subscription of Aspace Shares, the Company has been actively looking for another investor in order to meet up the capital requirement of Aspace and eventually became acquainted with the Subscriber. The Directors consider that the introduction of the Subscriber to Aspace represents a good opportunity to broaden the shareholder base and the capital base of Aspace. Given that the Subscriber is managed by an international fund management company with a strong financial background, by introducing the Subscriber to the Group's aerospace business, the Directors consider that it will improve the Group's reputation and help the Group to source other fund-raising opportunities, which will benefit the Group and the Shareholders as a whole. Furthermore, as the Subscriber is expected to remain as passive investor of Aspace, the Group is expected to continue to have high autonomy in business development and operation of Hong Kong satellite manufacturing centre under Aspace, which, in turn, would keep Aspace's future development in line with the business strategy of the other aerospace businesses of the Group.

Moreover, the subscription price per Subscription Share represents a premium over the unaudited net liabilities per Aspace Share based on the unaudited net liabilities of Aspace of approximately HK\$56.0 million as at 30 June 2023.

Having considered (i) the financial position of Aspace as at 30 June 2023 and the subscription price per Subscription Share is at a premium over the unaudited net liabilities per Aspace Share; (ii) the funding needs for future capital requirement and operation of Aspace; and (iii) the abovementioned benefits of introducing the Subscriber as a shareholder of Aspace, the Directors consider that the terms and conditions of Subscription Agreement are fair and reasonable and are on normal commercial terms and in the interests of the Company and the Shareholders as a whole.

LISTING RULES IMPLICATIONS

Upon Completion, Aspace will be indirectly owned as to 51% by the Company and as to 49% by the Subscriber respectively and therefore the Subscription shall be treated as a deemed disposal pursuant to Rule 14.29 of the Listing Rules. As one or more of the applicable percentage ratios (as defined in Rule 14.07 of the Listing Rules) exceed 5% but is less than 25%, the Subscription Agreement and the transactions contemplated thereunder constitute a discloseable transaction on the part of the Company and is subject to the reporting and announcement requirements and is exempt from the circular and shareholders' approval requirements under Chapter 14 of the Listing Rules.

Completion is subject to the fulfillment of the conditions precedent as set out in the Subscription Agreement and therefore the Subscription may or may not proceed, Shareholders and potential investors are advised to exercise caution when dealing in the securities of the Company. If they are in any doubt, they should consult their professional advisers.
